About GlassBuild America

GlassBuild America is the largest annual gathering place for the glass, window and door industries in the Americas and is ranked in the top 100 trade shows in the United States.* GlassBuild America leverages the National Glass Association's (NGA) print and digital properties, including the industry's leading publications — Glass Magazine and Window + Door — and key industry relationships, including the Fenestration & Glazing Industry Alliance (FGIA) and the North American Pavilion at glasstec, Düsseldorf, Germany, to deliver buyers.

About the National Glass Association

GlassBuild America helps fund the National Glass Association's (NGA) nonprofit programs and services, including industry training and advocacy. Founded in 1948, the National Glass Association (NGA), www.glass.org, combined with the Glass Association of North America (GANA) on February 1, 2018 to form the largest trade association serving the architectural glass and metals industry supply chain, including glazing contractors, full-service glass companies, glass fabricators, primary glass manufacturers and suppliers to the industry. It is a technical powerhouse that brings some of the best minds to the table to create technical resources and promote and advocate for glass in buildings.

NGA also hosts the Building Envelope Contractors (BEC) Conference, Glass Processing Automation Days (GPAD), and two NGA Glass Conferences in January and mid-summer.
