

Product novelty skai® mattex

Special features of skai® mattex:

- Extremely matt appearance with gloss level 2
- Innovative scratch-resistant grain with a sand-matt feel, just like powder-coated aluminum
- The PVDF coating makes the surface easy to clean, as well as temperature and chemical-resistant
- No shiny spots produced during welding and bending
- On-trend colors from black to white
- All skai® exterior films feature the cool colors technology for effective surface temperature reduction (dark colors with cool colors plus, if required)

Product construction:
